Mr. Romski:

On this date I reported to your office in order to provide a polygraph examination to your client, Mr. Richard Dutrow. He has been accused of certain irregular/illegal activities with regard to the horses he trains.

I interviewed Mr. Dutrow, explained the polygraph to him and reviewed the test questions with him prior to the test. I asked him the following relevant questions:

- 1) Prior to their discovery on November 3, 2010, were you aware of the three syringes in your desk?

Answer: No

- 2) Have you ever used any equipment for hypodermic injection, including syringes with needles?

Answer: No

- 3) Prior to the Aqueduct race on November 20, 2010, did you know that Fastus Cactus received Butorphanol?

Answer: No

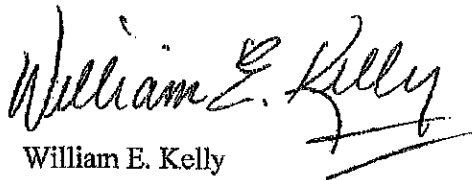

- 4) Did you direct anyone to inject Fastus Cactus with Butorphanol before the race on November 20, 2010?

Answer: No

It is the opinion of the polygrapher, based on the polygraph chart, that no deception was indicated when Mr. Dutrow answered these questions.

Respectfully submitted:
