

Dear Leader Pelosi,

Congratulations on winning the elections. As representatives of America's working people, we look forward to working with the new majority in the next Congress and with you as Speaker of the House.

Throughout your career, you have been an unquestioned champion for the interests of working men and women and their families, and we are confident that we will have much in common to work on beginning in January, including:

- Restoring and defending the rights of working people to bargain collectively. You have made labor rights, including the rights of federal workers, a top priority on your agenda and we support you for doing so.
- Passing infrastructure legislation to rebuild our roads, bridges, harbors, airports, schools, and water and mass transit systems. You have made infrastructure, and the good jobs and wages that come from that, a major priority and we support you for doing so.
- Fixing America's broken pension system and working to protect the health and retirement benefits of all workers. Working people face numerous threats to these benefits and we salute you for making it a priority to find a solution.

Congratulations again on your victory. We can think of no one better suited to be Speaker at this critical moment in history. We stand ready to work with you and the entire Congress on behalf of the tens of millions of working men and women and their families who are looking to us, and to you, to address their critical concerns.
